

A REPORT ON VISIT TO UMANG ORGANISED BY THE DEPARTMENT OF EDUCATION, IIS (deemed to be UNIVERSITY), JAIPUR

Inclusive education is a new approach towards educating the children with disability and learning difficulties with that of normal ones within same roof. It seeks to address the learning needs of all children with a specific focus on those who are vulnerable to marginalization and exclusion. A visit to UMANG, a registered and recognised NGO working towards rehabilitation of children with special needs, was organised to give the students an insight into the needs and considerations of the children with special needs. The visit was made by the students of fourth and sixth semester accompanied by the Ms. Tina Gupta on 7th and 8th February, 2019 and proved to be very enlightening and students of the university showed concern and understanding to deal with these children.
