

**A REPORT ON ADULT EDUCATION PROGRAMME ORGANISED BY
THE DEPARTMENT OF EDUCATION, IIS (deemed to be UNIVERSITY),
JAIPUR**

Adult education aims at educating the adults specially the one who have been deprived of proper education during their childhood and later, thus are unable to lead a better life. It also focuses on motivating the adults to study and learn at this stage of their life. It is a practice in which adults engage in systematic and sustained self-educating activities in order to gain new forms of knowledge, skills, attitudes and values. It reflects a specific philosophy about learning and teaching based on the assumption that adults can learn willingly. The students of department of education individually engaged themselves in this programme on 18th October 2018 with an aim to fulfil the ultimate aim of education i.e., all round development of the personality. It was an illuminating experience for the students to see many adults around them willingly participated in these sessions.
